## ATHLETICS IN PENSACOLA PUBLIC HIGH SCHOOL

AN ATHLETIC ASSOCIATION HAS BEEN ORGANIZED AND FINE WORK FOR NEXT YEAR IS EXPECTED—GIRLS ALSO HAVE ORGANIZATION AND MADE GOOD RECORD.

During the past year the boys of the High School have become greatly interested in athletic sports. Beginning in the fall with basket ball, winning two out of four games played, then following the basketball season up with a track meet with the Classical School and securing in this meet 68 points out of a total of 98 points, the boys have become very much encouraged and are now looking forward to greater athletic activity during the next school year. And in order that they may get the greatest possible good out of their sports they have formed an association for the management of all athletic events to be engaged in by the boys of the school. They have elected Mr. Lockey, principal of the High School, president of the association; Earl Lyman, vice-president; Charles Yates, secretary, and Chandler Yonke, treasurer.

### Funds Being Raised.

The association pledges itself to maintain a foot ball team, a basketball team, a track team and a baseball team. And as it requires money to support athletic teams in any school one of the objects of this organization in the High School will be to raise funds for meeting the necessary expenses of the teams. There is already a small surplus in the treasury and plans are on foot for increasing this fund so that there will be money on hand at the opening of school next fall for the purchase of foot ball suits.

Another object of this association is to give the school all-the-year-round athletics. Heretofore there has been a distinct ebb and flow in athletic interest. It is now planned to keep interest at a high pitch all the year by having foot ball in the fall, basketball in the winter, a track meet in the early spring and baseball during the last months of the school year. By having the season for each sport end promptly to be followed by the next, upon which interest will be centered, much better results will be obtained.

### Will Use Y. M. C. A. Gym.

Formerly one of the greatest difficulties in the way of maintaining successfully a basketball team has been the lack of a place to play. Next year this difficulty will be removed, for, as practically all the boys in the school above fourteen years of age will become members of the Y. M. C. A., they will have the use of the Y. M. C. A. gymnasium. Hours in the afternoon will be reserved for the use of the boys. Many of the boys will join the Y. M. C. A. as soon as it opens and in addition to the many other advantages they will enjoy there they will keep up their athletic training during the summer.

One of the clauses in the constitution adopted by the Athletic Association deserves special mention. This is a provision requiring each candidate for membership on any of the athletic teams to have an average not lower than 75 per cent in his studies and deportment. This provision goes into effect on October 1st, 1905. Already some of the boys who have been dangerously near the 75 mark have become more studious. It can be said to the credit of the boys that this was an agreement entered into purely on their part, and it is therefore their intention to live up to it. They are determined that it shall not be said that they are thinking more of their games than of their books.

### Interest in Baseball.

Interest at present is centered in baseball. There is not, however, as much interest manifested in this excellent sport as there ought to be. A series of three games will be played with the Classical School. These together with, perhaps, games with one or two schools outside of Pensacola will be the only games played by the team this year. Next year the team will be fitted out with new suits and a large schedule of games arranged. Barrow is captain of the team this year.

Within the next few days a meeting will be called to elect a captain of the foot ball team. The prospects for a strong team next fall are quite bright. All the larger boys with the exception, perhaps, of Barrow will be back. Hunt and Hannah who had formerly intended going away next year have decided to remain, and John Lewis, one of the fastest boys ever in the school, who dropped out in January, will be back in October. These boys, together with Yates and Rogers, who entered school this year, and Caro will form the nucleus of an excellent High School team. The secretary of the association would like to correspond with any High School team in Florida or Alabama regarding games for next fall.

### Girls Also Enthusiastic.

But speaking of athletics in the High School the girls, too, come in for a share of this article. Last winter there was organized in the school a girls' basketball team which from that time to this has never suffered defeat. None of the boys' teams has such a record. There was another girls' team which played fully as well, and if it had not been necessary for a team to be defeated, they, too, would boast of never having been beaten. The girls will play basketball again next year. Just where they will play nobody knows, but they will play, there is no doubt of that. The Armory is forbidden them, because, perhaps, they scream, and now and then break a window. But there are places where girls may be permitted to make a little noise and some such place will be found for them. Basketball is too fine a game for girls, to have them deprived of playing it because there is

## THE DEWEY DAY PICNIC TO-MORROW

ANCIENT ORDER OF HIBERNIANS WILL CELEBRATE OCCASION AT KUPFRIAN'S PARK.

The Dewey Day Picnic at Kupfrian's Park tomorrow, under the auspices of the Ancient Order of Hibernians, promises to be a most enjoyable affair.

A large number of attractions will be provided, prizes will be awarded, and excellent music will be rendered throughout the afternoon and evening.

The Pensacola Hibernians were the first and, so far as is known, the only order to institute an annual celebration of Dewey's victory at Manila. Their picnic on the anniversary of that day have always been well attended and always proved successful. The public is invited to the one held tomorrow, with assurances of a good time.

### Don't Borrow Trouble

It is a bad habit to borrow anything but the worst thing you can possibly borrow, is trouble. When sick, sore, weary, worn-out by the pains and poisons of dyspepsia, biliousness, Bright's disease, and similar internal disorders, don't sit down and brood over your symptoms, but fly for relief to Electric Bitters. Here you will find sure and permanent forgetfulness of all your troubles, and your body will not be burdened by a load of debt disease. At all drug stores Price 50c. Guaranteed.

no place to play. There must be a place.

Tennis is another fine game for girls as well as for boys. When the Athletic Association has as much money as it needs tennis courts will be built on the school grounds. In the meantime the girls may get busy and raise the money themselves. If they once decide that they will have tennis courts, why, then they will have tennis courts. There is not any doubt about that, either.
